New York Stock Market

New York, July 28,-The further material recuperation of stock market terial recuperation of stock market values to-day followed the disclosure in additional details of the arrangements by which heavy blocks of securities hanging over the market had been taken over by powerful banking syndicates, thus saving the necessity of further; sacrifice of values in a ruthless sale in the open market with no demand sufficient to absorb the offerings.

Jess sale in the open market with no demand sufficient to absorb the offerings.

Attention was focused on the operation dealing with the Pearson syndicate holdings, taken up by Kunn, Loeb & Company and foreign associates. The circumstantial and authentic reports on this transaction gave it a major interest, but there were conjectures of the similar settlements, especially one growing out of a project of railroad amalgamation, ambitious almost in scope as the one overtaken by the transfer admitted. The effect of these developments on the speculative tone of the market was electrical. The relief from threatened liquidation of dislodged holdings, was enough in itself to change the complexion of the outlook. To this was added the room for surmises over the new combinations and changes of control, possibly to be effected out of the new ewnership of shares. There was some anxiety shown in the direction of this surmise so far as it supposed the possibility of these new holdings coming back on the market at more advantageous opportunity. The bad effect of this supposition was neutralized by intimations of the probable permanent character of the new investment.

The sudden adjustment of so dangerous a situation left a very large short interest uncovered in the market, which had counted on a continuance of a forced liquidation to depress prices to a still lower level. The bear party were large and urgent buyers in all departments of the market, and their necessities made it easy for their opponents to bid prices up on them rapidly.

It was assumed that the settlements which had been effected would include whether the complex of the continuous of the potential include whether had been effected would include

cleasities made it easy for their opponents to bid prices up on them rapidly.

It was assumed that the settlements which had been effected would include the placing of substantial amounts of securities with foreign holders. Some large blocks of very high grade stucks were believed to have passed in the process of protection and adjustment, part of which were designed for for eign investors. The buying in the open market also included as substantial proportion of orders for foreign account. The low level to which prices had been forced proved attractive to investors, when the fact became known of the clearing of the situation. The currents of the money movement continue to move towards the strengthening of setting movement. A ship ment of \$50,0000 in gold to-day to Canada makes a total of \$1,000,000 for that destination this week, Special interest will attach to the loan account of the comming bank statement, especially that of some offsetting movement and interest will attach to the loan account of the comming bank statement, especially that of some of the trust companies and interest will attach to the loan account of the comming bank statement, especially that of some of the trust companies and interest will attach to the loan account of the comming bank statement, especially that of effect. The Bank of England weekly report showed the strong recuprenties for the comming bank statement, especially that of effect. The Bank of England weekly report showed the strong recuprenties for each of the comming bank statement, especially that of effect. The Bank of England weekly report showed the strong recuprenties for each of the comming bank statement, especially that of effect. The Bank of England weekly report showed the strong recuprenties for each of the comming bank statement, especially that of effect. The Bank of England in geourity for the New York money market as a source of available relief for any need.

Cotton futures opened firm and closes, the provise were disregarded. The reports were disregarded. The

for any need.

The corn crop advices were more tayorable to-day, and the poor cotton reports were disregarded. The reports of restriction of copper production took more concrete form with the authority for them given by name and including the president of the Amalgamated Copper Company.

COTTON MILL MEN IN GIGANTIC COMBINE

New Corporation Starts With Authorized Capital of \$10,000,000 and Takes Over

Baltimore, Md., July 28.—Wheat—Marke steady on southern grade, 33½ #31.00½. Corn. Nominal; apot. 70½c. Oats—Firm: No. white. 43 #32;c; No. 2 mixed, 45½ #47c. Rye. Nominal; No. 2 Westrn, domster, 50 #25;c.

at primary markets to-day reaching a total nearly double that of a week ago and considerably more than at the corresponding time last year, a heavy tone developed. The delivery was an exception because the what that is arriving cannot be unloaded into public elevators soon enough as a rule to be available for this month's contracts. The close, although showing a full cent advance for July was off \$401\%c. for other options. Cooler weather and rain ran corn down, which finished at a net decline of 119-214c. Oats sold off 114-215c. Provisions declined \$601\%c.
